The Municipal League of King County requests every candidate who participates in the candidate evaluation process to **submit background information prior to his/her interview with a candidate evaluation committee**. The questionnaire is the basis of the League's research and interview process. The League's ratings are non-partisan; they are based on standards of Involvement, Effectiveness, Character, and Knowledge, all of which have been developed and refined over the past 90 years.

A printed version of the questionnaire is available for candidates who prefer to use the traditional format. To obtain a hard copy, please contact the League office. A copy of this questionnaire will be provided to Candidate Evaluation Committee members to help them prepare for your interview. Candidate responses, except the confidential section, will be available to the general public at the League website.

The Municipal League requests the following materials from candidates. Please check to make certain you have sent in your:

- Candidate Questionnaire**

**Note: Electronically submitted questionnaires are strongly preferred. All materials can be emailed to [cec@munileague.org](mailto:cec@munileague.org). They can be processed and made available on-line far more rapidly than handwritten or typed submissions.**

---

For non-electronic submissions, please print clearly and legibly and return the application **as soon as possible in order to allow the committee the greatest amount of time to prepare a complete report on your skills and experience.**

**We request that you return the Candidate Questionnaire  
by June 1, 2008**

If you have not yet been contacted to schedule an interview, or if you have questions about the candidate evaluation program, please contact the League office at 206-264-1070.

If you have a disability and require accommodation to participate in the candidate evaluation process, please contact the CEC Coordinator at the League office.

## SECTION II

In this section, we are seeking responses that reflect the four ratings criteria: involvement, effectiveness, character, and knowledge. These are defined as follows:

- **Involvement:** What has the candidate done previously in family, neighborhood, community, volunteer work, employment or public life to suggest readiness to accomplish challenging objectives? How do these activities demonstrate readiness for the challenges unique to the office sought?
- **Effectiveness:** Has the candidate demonstrated promise of being productive in the office sought? Has the candidate shown the ability to work with other people?
- **Character:** Do the candidate's personal traits show the ability to take on the responsibilities of campaigning for and holding the public office she or he is seeking? Is the candidate a leader, participant or observer? Is the candidate trustworthy, reliable and candid?
- **Knowledge:** Has the candidate demonstrated the willingness and ability to learn and adapt? Does the candidate understand the duties and challenges of the office sought? Does the candidate have a firm grasp of the issues important to his or her constituency and their potential effects?

- 
1. In one page or less, why are you running for this office? (Note: the interview committee will be given a copy of this statement before your interview; at the beginning of your interview you will have the opportunity to expand on this statement in any way you wish.)

I care deeply about the people and the communities that make up the 41<sup>st</sup> district and have been honored to serve a part of the 41<sup>st</sup> district these past 5 years on the Mercer Island City Council. I have truly enjoyed working with citizens and other elected officials to come up with solutions that make people's lives better. It is as tangible and immediate as a new stop sign, dog-leash laws or fixing a pot hole, to as abstract, complex and long-term as regional transportation initiatives, city-school partnerships and sustainability initiatives. This experience, along with my community activity, as outlined in Question #5, has given me first-hand knowledge of the hopes and dreams of the 41<sup>st</sup> district and the experience and relationships to help build coalitions to solve the most pressing issues for all the people of the 41<sup>st</sup> district.

I am running for the families who sit in traffic day after day and wonder why no major transportation investments have occurred since the early 1990's, why our teachers are being overwhelmed with overflowing classrooms and why affordable renewable energy isn't already here. These changes are neither Republican nor Democrat. The solutions are beyond party politics and can provide an incredible quality of life for all of our citizens, but it takes leadership and a willingness to work together. I would be honored to be given the opportunity to rise above the inertia of individual interests of Olympia to develop collaborative and innovative solutions that put us back on track and into the 21<sup>st</sup> century.

To improve the education system, we must fully fund basic education as the top priority of the State. I would work with other education advocates Skip Priest, Fred Jarrett, Judy Clibborn and Ross Hunter among others to fully fund the education needs of the State. This would include paying teachers a market competitive wage, ongoing training and performance bonuses. It would include capital improvements and the ability to gain single-subject certification at the high school level to reduce classroom size. As part of fully funding education, we need to expect and measure excellence. I would work to continue to improve the WASL as a genuine measure of performance.

To reduce congestion, we need to build a world-class public transportation system with a flexible mix of buses, bus rapid transit (BRT), light rail and roads that begin to relieve critical congestion choke points immediately and expand as we grow. This begins by replacing the 520 bridge, using tolls to help pay for it, as well as funding and building the already approved congestion relief projects on I-405 and I-90 including the R8A lane re-stripping project. I would then work for an expansion of bus service including a BRT system that would operate along SR 520, I 405, I-90 and SR 167 to serve

the major activity centers of the Eastside as outlined in the 2002 I-405 Corridor Program Record of Decision. This system should be populated with electric hybrid buses that have substantially reduced CO2 emissions versus the current buses. It is time to put aside partisan fighting and get the Eastside moving again.

I believe strongly that we have a responsibility to sustain – if not enhance – our environment and our region's economy for our children and future generations. Working together to find that sustainable balance will be the most effective and efficient way to make our communities healthier for everyone. It is time to work together to develop meaningful solutions for the families of our State.

Approximately 50% of carbon emissions are from transportation. As I stated above, we need to build a world-class transportation system that allows people and freight the freedom to move around while protecting the environment. I support the Governor's call for the State to set its own CAFÉ standards and the Puget Sound Partnership's efforts for the restoration of a healthy Puget Sound by 2020. I believe we should incent companies and individuals to use green technologies and adopt more environmentally friendly behaviors. This would include eliminating sales tax on green vehicles and alternative fuels, eliminating B&O tax for companies developing green products and providing incentives to utilities to aggressively market green energy.

These issues are inseparable. Their solutions are bi-partisan and have a symbiotic relationship in which there is mutual benefit from cooperation as we move forward in an environment of limited resources, greater density and global competition. The success I see is my sons and daughters raising their sons and daughters in a thriving Puget sound region.

2. Describe your most important personal characteristics or traits as they relate to the office you seek.

I believe I share three traits with other effective public servants. These are courage, optimism and a collaborative spirit. As I have had the good fortune to work with and observe legislators at all levels of government over the past several years, I have developed my legislative approach based on these traits. You need courage to stand up and advocate for what you believe is right for your constituents in the face of opposition. You need optimism to believe that things can truly be better, that you can find a solution. And finally to make it all work, you need a collaborative spirit that allows you to listen, contribute and build consensus. My father always told me, "It is amazing what you can accomplish, if you don't care who gets credit." I have found this to be a very effective approach in the 5 years of non-partisan legislative work on the Mercer Island City Council.

3. Please describe, in sufficient detail, one to three accomplishments or contributions of which you are most proud. These examples should illustrate skills and capabilities you think apply to the office you are seeking. These accomplishments may have occurred at any time in your personal, professional, or public life.

I have been happily married for 20 years to my wife, Jenny and together we have raised four active and happy children ages 17 to 10 years old. My family, above all else, has shaped who I am as a person. As any spouse and parent knows, your family grounds you, supports you and stretches and pushes you in ways that you cannot imagine, but seem obvious in hindsight. Of the countless things I have received from my family, one that applies to being an elected official is a greater sense of empathy.

In 2005, I was on the board of our Rotary Club's annual Mercer Island Half Marathon fund raiser. The race had been put on by the Rotary club for 30 years raising about \$50k with 2500 participants each year. At the first board meeting, I was asked to figure out how to increase participation and money raised. Shortly thereafter, I was on a Y-Princess Campout and listening to a friend talk about his sister dying from colon cancer and his desire to honor her and fight colon cancer. Another friend with us was a doctor at Virginia Mason discussing their efforts to increase colon cancer screenings. Together, we developed the idea of what became the Mercer Island Half Marathon for Colon Cancer Awareness. Over the next six months we worked with Rotary, Virginia Mason and King5 TV and successfully raised over \$150,000 with over 3500 participants. The Race continues today – 4 years later - raising hundreds of thousands of dollars as a premier Colon Cancer Awareness event.

As the Councilmember on the Mercer Island Planning Commission, I became convinced after listening to the commissioners and particularly the Planning commission chair, Bill Chapman, of the need to sustain – if not enhance – the environment as well as the economy as we grow. I also became convinced that local governments needed to take the lead in this Sustainability movement. The issue was that my fellow councilmembers at the time did not share my convictions. While I was able to do a few things as an individual councilmember to promote sustainability, it wasn't until I

teamed up with a new Councilmember that we were able to make real progress on making Mercer Island a sustainable community. We worked together to develop a plan, co-authored articles for the Mercer Island Reporter and received unanimous support from the Council for a Sustainability Work plan including having the City take a lead role in the formation of the Puget Sound Regional Green Fleet Initiative among other accomplishments. It was an impactful and enriching experience to see that varying backgrounds and beliefs could collaborate on this issue and deliver results that continue to benefit the community today.

4. Please list or describe current and past activities in the community in which you have acquired skills that relate to the office you seek. Include your role in the activity and the year(s) in which you were involved. Involvement consists of many areas such as family, neighborhood, community, employment, or public life.

Mercer Island City Council (2003 – present)

Mercer Island Rotary (2002 – present)

Mercer Island Rotary Colon Cancer Half Marathon Board (2005-2006)

Mercer Island Chamber of Commerce (2002 – present)

Bellevue Chamber of Commerce (2006- present)

Member of Mercer Island Youth & Family Services Board (2002-2003)

Eastside Transportation Partnership (2006 – present)

St. Monica Catholic Church Parish Council (2002-2004)

Lake Heights YMCA Y-Guides and Y-Princesses (1996 – present)

Mercer Island Senior Foundation ( 2005- present)

Board Member, Summer Search, non-profit mentoring program for at-risk youth (2007-present)

Mercer Island Boys & Girls Club (1996 – present)

5. Please describe the duties of the office you seek. Which are the most important duties and why?

The most important duty of a State Representative is to represent the people of the District in building durable coalitions around solutions that solve public problems. To do this effectively, you have to constantly listen and respond to the diversity of public views on all sides of the issue and strive for the common ground that will get the job done. Being the best representative for your constituents means not only bringing a voice to their hopes, dreams, fears and concerns, but also bringing common sense and a collaborative spirit to allow a good solution to be implemented versus the endless discussion of the “perfect” solution.

**EDUCATION BACKGROUND SUMMARY  
FOR PUBLICATION IN CANDIDATE EVALUATION REPORT**

The Municipal League's Candidate Evaluation Report is distributed to voters in print and on our website. It includes a summary of the candidate's education. Please summarize your education in 120 characters (letters, punctuation, and space all combined). The League will delete material that exceeds the space limit by beginning with the last entry. Suggested order is (degree) (subject) (school) (year, if desired).

**Note:** *If this question is left blank the League will not include education information in your candidate profile.*

**Brookfield East High School, Brookfield, WI  
B.A., Political Science, Northwestern University,**

**CIVIC INVOLVEMENT SUMMARY  
FOR PUBLICATION IN CANDIDATE EVALUATION REPORT**

The Municipal League's Candidate Evaluation Report includes a summary of each candidate's civic involvement. Please summarize your civic involvement in the space below. We will make every attempt to include the information in the Candidate Evaluation Report as submitted. Due to space restrictions in the Report, your response is limited to 500 characters (letters, punctuation, and spaces all combined). It is important that you list your involvement beginning with the most important and ending with the least important. If you exceed the length of response permitted, or if the League should find it necessary to shorten responses for publication purposes, deletions will be made beginning with the last item listed.

**Note:** *This information will appear verbatim on the League's Candidate Evaluation Report. If this question is left blank, the Municipal League will not include information on your civic involvement in the Report.*

Check here if you would like the Municipal League to copy the first 500 characters from Question 4 to paste into this section.

As a father, entrepreneur and City Councilmember, I have been actively involved in our community and understand the 41<sup>st</sup> District's issues on a personal level. I have worked with many committees including Seniors, Youth & Family Services, Public Safety, Planning, Sustainability, the Mercer Island School Board and the Eastside Transportation Partnership. I am also a member of Mercer Island Rotary, St Monica Parish and the Chambers of Commerce for Mercer Island, Bellevue, Renton and Newcastle.
